Hi Nan,

In this paragraph for Kevin Campbell MD rationale who's name does the XXXX reference?

During the GFTP meeting Complainant stated that Managers knew this would happen and that the other employee (Augusto) would make comments during the sort and curse him out. Complainant brought up an incident from last year when he reported another employee, Peter Lorenzi #165551, for referencing Trayvon Martin in a conversation. XXXX was disciplined for his comments. Complainant stated that other employees called him a snitch.
